TECHNICAL DATA SHEET

PAVING DEEP CLEAN

EXTERIOR USE

Removes black spot, lichen, moss and stains from all types of patio paving including natural stone, concrete and porcelain paving.

Ready to use deep cleaning solution that works on a wide range of outdoor surfaces, keep your patio, garden path and driveway looking their best all year round.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USE.

Always test on an inconspicuous area before general application.

This product contains bleaching action.

Apply neat directly to the surface to be treated through a plastic watering can or light pressure garden sprayer. Leave to absorb for 2-4 hours Product will begin to fizz as it gets to work. Hose off thoroughly with clean water.

Ensure that the area to be treated is cleared of garden furniture and other items so that they are not in accidental contact with the product. Ensure all loose dirt and other physical debris is removed first by brushing prior to application.

The product can be applied to slightly damp or dry surfaces. Do not apply to surfaces saturated from recent rainfall or if rain is due within the time period required to treat the surface

NB: Keep pets and children away from area until entire operation is completed. In case of contact with metals, fabrics and painted surfaces rinse with water immediately. Avoid contamination in to ponds.

Rinse all equipment that has been in contact with the product with cold water after use.

Do not use in conjunction with acid based removers or other acid based cleaners.

Preventative Treatment: Sealing newly cleaned stone, brick and concrete surfaces with External Stone Sealer or porcelain tile surfaces with Porcelain Protector will help prevent moisture and organic particles from absorbing and taking hold of the surface, reducing the growth of algae, mould and black spot.
