

Above: Ca'Pietra Stone & Tile will be setting out its stall as a market-leading brand in the distribution of natural stone tiles, flagstones and slabs; as well as hand-made encaustic cement and decorative tiles.

It is made from a complex mixture of 100% mineral-based materials through a patented GeoMimicry forming technology, which enables realistic marble-like veins throughout slab body. Geoluxe is produced in slabs measuring 3,200 by 1,400mm, with calibrated thicknesses of 20mm.

Stuart Brown Marketing will be promoting stone-effect porcelain tiles from Italy. Offered in sizes from 300 by 600mm to 600 by 1,200mm, they are suitable for internal and external use. Also on show will be a selection of 20mm thick porcelain in 600 by 600mm and 400 by 1,200mm for external use straight onto grass, gravel or concrete. The strength of the 20mm thickness makes them also suitable for fixing onto 'jack post' supports to allow for concealed cabling. A full selection of special pieces is also offered for swimming pools surrounds, patios and driveways.

Tilers Tools - Aquacut - will be displaying stone and tile samples, logos, motifs, step cladding, anti-slip systems, mechanical fixing system, alongside equipment, tools and consumables for tilers and landscapers, manufactured by Raimondi.

Trimline Group will be exhibiting a wide range of trusted products and solutions for the installation and maintenance of tiled surfaces from renowned brands such as Schluter, Mapei, KeraKoll, Atrim, Dukkaboard and Lithofin. The company is encouraging visitors to come and discover how Trimline can become a trusted business partner, offering in-depth expertise and leading customer support.

Welsh Slate has a 500-million-year pedigree yet its properties meet the needs of a range of contemporary interior and exterior design applications. Available in a range of colours and finishes, it is popular for heritage and modern projects alike, including flooring in the British Museum and cladding at the ME Hotel London.

Other design applications for Welsh Slate, which is as durable as it is beautiful, include walling, paving, worktops and counters, landscaping, sawn scants, cills and copings, fire surrounds and hearths.
